

## Our Focus

### It's as easy as 1 - 2 - 3

1. Education institutions select 10-12 student mediators to participate in a 3 hour training that is held at their school.
2. In person training teaches components of active listening, understanding peer's perspectives, how to find commonalities, and civility.
3. Each school decides in what ways and how they want to utilize the program.

### What Do Student Mediations Look Like?

\*Student mediations occur and are administered in the ways the particular campus administration feels is best.

We train student mediators to be able to lead the mediations in helping students with conflict come up with resolutions.

#### Ideas for Mediations:

- Actively occur during school days
- Are used as a replacement for other scheduled disciplinary practices.
- Consistent occasional mediation times are scheduled weekly or monthly.

#### More Opportunities We Offer:

- Educator Trainings
- University Trainings
